

Michigan State Board of Education Christ the King Lutheran School Wellness Policy

Preface

The Michigan State Board of Education recognizes and acknowledges that “schools cannot achieve their primary mission of education if students and staff are not physically, mentally and socially healthy.”¹ The Board believes that schools should provide a campus-wide environment where students are taught healthy eating and physical activity knowledge, skills, and values. In addition, the campus-wide environment should provide ample opportunity to practice these skills on a daily basis.

A local school wellness policy is a written document that guides a local educational Agency’s² (LEA) efforts to establish a school building environment that promotes students’ health, well-being, and ability to learn. The wellness policy requirement was established by the Child Nutrition and WIC Reauthorization Act of 2004, and further strengthened by the Healthy, Hunger-Free Kids Act of 2010 (HHFKA). It is specific to LEAs (local school districts, public school academies, and intermediate school districts), as opposed to School Food Authorities,³ that participate in the National School Lunch Program and/or School Breakfast Program. The responsibility for developing, implementing, and evaluating a wellness policy is placed at the local level so the unique needs of each school under the LEA’s jurisdiction can be addressed.⁴

This State Board of Education Model Local School Wellness Policy was developed to assist Michigan school districts in developing their own local wellness policies. This document supersedes the 2005 model policy and must be modified to reflect local school district policy and procedure. Evidence-based⁵ goals must be specific, measurable, achievable, realistic, and time based (SMART).

1 Michigan State Board of Education Policy on Coordinated School Health Programs to Support Academic Achievement and Healthy Schools

2 A commonly used synonym for a school district, an entity which operates local public primary and secondary schools in the United States.

3 The governing body which is responsible for the administration of one or more schools and which has the legal authority to operate a nonprofit school food service program therein or otherwise approved by the Food and Nutrition Service of the United States Department of Agriculture to operate the National School Lunch Program.

4 Local School Wellness Policy Implementation Under the HHFKA: Summary of Final Rule

5 Any concept or strategy that is derived from or informed by objective evidence.

Wellness Committee and Policy Leadership

Committee Role and Membership

The LEA will convene a representative district wellness committee to establish goals for and oversee school health policies and programs, including development, implementation, and periodic review and update of this district-level wellness policy. The committee will represent all school grades and include to the extent possible, but not be limited to: parents and caregivers, students, representatives of the school nutrition program, physical education teachers, health education teachers, school health professionals (e.g., nurses, physicians, dentists, health educators, and other allied health personnel who provide school health services), mental health and social services staff (e.g., school counselors, psychologists, social workers, or psychiatrists), school administrators, school board members, health professionals (e.g., dietitians, doctors, nurses, dentists), and the general public. When possible, membership will also include Supplemental Nutrition Assistance Program Education (SNAP-Ed) coordinators. To the extent possible, the committee will include representatives from each school building and reflect the diversity of the community.⁶

Wellness Policy Leadership

The LEA will establish wellness policy leadership of one or more district and/or school building official(s) (e.g., superintendent, building principal) who have the authority and responsibility to ensure each school building complies with this policy.⁷

The designated official(s) for oversight is:

Mary Eifert, Principal
612 East Bay Street
Sebewaing, Mi 48759
989-883-3730

Nutrition

Nutrition Education

Every year, all students, Pre-K-12, shall receive nutrition education that is aligned with the Michigan Health Education Grade Level Content Expectations⁸ and the Michigan Merit Curriculum Guidelines for Health Education.⁹ Nutrition education that teaches the knowledge, skills, and values needed to adopt healthy eating behaviors shall be integrated into the curriculum. Nutrition education information shall be offered throughout the school campus including, but not limited to, school dining areas and classrooms. Staff members who provide nutrition education shall have the appropriate training.¹⁰

Michigan State Board of Education

Christ the King Lutheran School Wellness Policy

SMART goal(s) for Nutrition Education:

1. Every year, all students in K- 8, shall receive nutrition education that promotes treating bodies as temples of God.
2. Nutrition education that teaches the knowledge, skills, and values needed to adopt healthy eating behaviors shall be integrated into the curriculum and displayed throughout the school campus.
3. Nutrition education shall be integrated into other subject areas of the curriculum, when appropriate, to complement, but not replace, the standards and benchmarks for health education.
4. Nutrition education shall include enjoyable activities, such as contests, promotions, surveys, and others.
5. Nutrition education posters, such as the Food Plate poster, will be displayed in the cafeteria.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and participation in school meal programs. Students and staff will receive consistent nutrition messages throughout school buildings, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a 3 comprehensive and multi-channel approach by school building staff, teachers, parents, students, and the community. The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs.¹¹

SMART goal(s) for Nutrition Promotion:

1. Encourage students to increase their consumption of healthful foods during the school day.
2. Require students to select a fruit or vegetable as part of a complete reimbursable meal.
3. Nutrition education shall extend beyond the school by engaging and involving families and the community through take home pamphlets and activity based events.
4. All students in 3rd grade will take a field trip to “Project Red” which highlights local foods grown during Rural Education Day.

Standards and Nutrition Guidelines for all Foods and Beverages

The District shall encourage students to make nutritious food choices and ensure that all foods and beverages sold to students on the school campus¹² during the school day¹³ are consistent with federal and state regulations.

Reimbursable school meals must meet requirements found in United States Department of Agriculture (USDA)'s Nutrition Standards for School Meals.¹⁴

All foods and beverages sold to students outside the federally regulated child nutrition programs (referred to as "competitive" foods and beverages) must be consistent with USDA's Smart Snacks in School nutrition standards¹⁵ and Michigan Department of Education Administrative Policy No. 21 regarding Non-Compliant Food Fundraiser Guidance.¹⁶ These standards apply in all areas where foods and beverages are sold which may include, but are not limited to, à la carte lines, fundraising events, school stores, snack carts, and vending machines.

The District will establish nutrition standards for all foods and beverages provided, but not sold, to students during the school day (e.g., classroom parties, classroom snacks provided by parents, or other foods used as incentives).¹⁷

Nutrition standards for all foods and beverages provided, but not sold, to students during the school day:

1. The sale of foods and beverages to students that do not meet the USDA Smart Snacks in School nutrition standards to be consumed on the school campus during the school day is prohibited.
2. All food items and beverages available for sale to students for consumption on the school campus (any area of property under the jurisdiction of the school that is accessible to students during the school day) between midnight and thirty (30) minutes after the close of the regular school day shall comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, including, but not limited to, competitive foods that are available to students a la carte or as entrees in the dining area (except entree items that were offered on the National School Lunch Program (NSLP) or School Breakfast Program (SBP) menu on the day of and the day after they are offered on the NSLP or SBP menu), as well as food items and beverages from vending machines, from school stores, or as fund-raisers, including those operated by student clubs and organizations, parent groups, or boosters clubs.

¹² All areas of the property under the jurisdiction of the school that are accessible to students during the school day.

¹³ The period from the midnight before, to 30 minutes after the end of the official school day.

¹⁴ USDA Nutrition Standards for School Meals

¹⁵ USDA Smart Snacks in School nutrition standards

¹⁶ Administrative Policy No. 21 clarifies that up to two exempt fundraisers per week are allowed per school building that do not meet the Smart Snacks in School nutrition standards.

Food and Beverage Marketing

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller, or any other entity with a commercial interest in the product.¹⁸ It is the intent of the District to protect and promote student's health and to provide consistent health-related messaging.

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet the USDA Smart Snacks in School nutrition standards. As the LEA reviews existing contracts and considers new contracts, equipment and/or product purchasing and replacement, decisions will reflect these marketing Guidelines.¹⁹

Physical Activity and Physical Education

The District shall offer physical education opportunities that include the components of a quality physical education program. Physical education shall equip students with the knowledge, skills, and values necessary for lifelong physical activity. Physical education instruction shall be aligned with the Michigan Physical Education Grade Level Content Expectations²⁰ and the Michigan Merit Curriculum Guidelines for Physical Education.²¹ Christ the King has a curriculum that promotes Christian standards and values as written in Holy Scripture.

SMART goal(s) for Physical Education:

1. All students in grades K-8, including those with disabilities, and special health care needs, may receive instruction in physical education for ninety (90) minutes a week throughout the entire school year.
2. Physical education classes shall provide students with opportunities to learn, practice, and be assessed on developmentally appropriate knowledge, attitudes and skills necessary to engage in lifelong, health-enhancing physical activity.
3. Properly certificated, qualified teachers shall provide instruction in physical education.
4. Planned instruction in physical education shall meet the needs of all students and take into account gender and cultural differences.

Christ the King Lutheran School Wellness Policy

Students, Pre-K-12, shall have the opportunity to participate regularly in supervised physical activities, either organized or unstructured, intended to maintain physical fitness and to understand the short- and long-term benefits of a physically active and healthy lifestyle.²²

SMART goal(s) for Physical Activity:

1. Physical activity shall not be employed as a form of discipline or punishment.
2. Physical activity and movement shall be integrated, when possible, across the curriculum and throughout the school day.
3. All students in grades K - 8 shall be provided with a daily recess period at least twenty (20) minutes in duration. Recess shall not be used as a reward or punishment.
4. All students in grades 5-8 shall have the opportunity to participate in interscholastic sports programs; some programs allow 2-4 grade students.
5. In addition to planned physical education, the school shall provide age-appropriate physical activities (e.g., recess during the school day and interscholastic sports) that meet the needs of all students, including males, females, students with disabilities, and students with special healthcare needs.

Other School-based Activities that Promote Student Wellness

The District will implement other evidence-based programs across the school setting to create environments that are conducive to healthy eating and physical activity and convey consistent health messages.

SMART goal(s) for other school-based activities that promote student wellness:

1. The schools shall schedule mealtimes so there is minimum disruption by recess, and other special programs or events.
2. The school shall provide attractive, clean environments in which the students eat.
3. Students are discouraged from sharing their foods or beverages with one another during meal times, given concerns about allergies and other restrictions on some students' diets.

Implementation, Assessment, Documentation, and Updates

Implementation

The District will develop and maintain a plan to manage and coordinate the implementation of this wellness policy. The plan will delineate roles, responsibilities, actions, and timelines specific to each school building.²³ It is recommended that school buildings use the Healthy School Action Tool (HSAT)²⁴ to complete a school-level assessment and create an evidence-based action plan that fosters implementation.

Triennial Assessment

The LEA will conduct an assessment of the wellness policy every three years, at a minimum. The assessment will determine: building level compliance with the wellness policy, how the wellness policy compares to model wellness policies, and progress made in attaining the goals of the wellness policy.²⁵

The person responsible for the Triennial Assessment is:

Mary Eifert, Principal
612 East Bay Street
Sebe waing, Mi 48759
989-883-3730

Documentation

The LEA will retain records to document compliance with the wellness policy requirements. Documentation maintained will include: a copy or web address of the current wellness policy, documentation on how the policy and assessments are made available to the public, the most recent assessment of implementation of the policy, and documentation of efforts to review and update the policy, including who was involved in the process, their relationship to the LEA, and how stakeholders were made aware of their ability to participate.²⁶

This wellness policy can be found at (<https://www.ctklschool.org/academics>):

Required documentation will be maintained at: <https://www.ctklschool.org/>

Updates to the Policy

The LEA will update or modify the wellness policy as appropriate based on the results of the HSAT and Triennial Assessments; as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new federal or state guidance or standards are issued. The wellness policy will be updated at least every three years, following the Triennial Assessment.²⁷

Public Updates

The LEA will inform the public annually about the local wellness policy, including its content and any updates to and about the policy. The Triennial Assessment, including progress toward meeting the goals of the policy, will also be made available to the public. The District will provide information on how the public can participate on the wellness committee and assist with the development, implementation, and periodic review and update of the wellness policy. All communication will be culturally and linguistically appropriate and will be available via the district website and/or districtwide communications (email, newsletters, mailings).²⁸
